

OWNER'S MANUAL KAMBYS

Congratulations on the purchase of your CYRUS timepiece and thank you for your trust!

We are very proud to welcome you to the selected group of happy owners of this exceptional watch.

The Kambys is produced in a limited series of 188 pieces for each version in titanium and in 5N 18K rose gold with black DLC titanium. This timepiece, with a tonneau-shaped case, features three functions which CYRUS interprets in a very original way. The eye-catching 7-day power reserve with its three cylinders sliding progressively along a vertical axis, the exclusive and technically advanced seconds function with three hands, each of which counts 20 seconds and finally the secret animation on a rotating disc, which unveils, the number of the limited series of the watch, then the symbol of the CYRUS coin (the first coin in the history of humanity, produced under the reign of CYRUS the Great) finally to end with the CYRUS logo. The Kambys is entirely produced in our Manufacture Chronode in Le Locle, Switzerland and is equipped with the in house hand-winding CYR7778 calibre which ensures a power reserve of 168 hours.

By choosing CYRUS Kambys, you have chosen innovation, exclusivity and a strong identity.

We invite you to consult the instructions for use and wish you an excellent journey in the universe of CYRUS timepieces.

CYRUS, "The Conquest of Innovation" !

CONTROLS AND INDICATIONS

- A. Hours hand
- B. Minutes hand
- C. Seconds hand
- D. Power reserve indicator on three sliding cylinders
- E. Secret animation on a rotating disc

OPERATING INSTRUCTIONS

Crown at 3 o'clock

WINDING THE WATCH

Position |

Manual winding. Turn the crown clockwise to wind the watch. When the movement is fully wound (about 43 turns of the crown), a power reserve of 168 hours is granted.

SETTING THE TIME

Position |'

Pull out the crown in position |' to set the main time and turn the hands clockwise (A = hours hand / B = minutes hand). Seconds require no adjustment (C).

Read off of the seconds

This function is positioned between 7 and 8 o'clock. Three hands of different lengths cross three 120° arches. Each hand, inclined at 8° passes over another every 20 seconds (0 → 20 sec. / 20 → 40 sec. / 40 → 0 sec.)

Crown at 9 o'clock

Position |

Pressing the button on the crown activates the secret animation (E).

Pressing it the serial number of the limited edition watch appears. Press it again, and the symbol of the CYRUS coin

appears to replace the previous inscription. Press one last time and the CYRUS logo appears.

POWER RESERVE

How the power reserve function works

Three cylinders slide along a vertical axis from 1 to 5 o'clock. Each of the first two cylinders represents two days of power reserve (total of 96 hours). The last cylinder represents three days of power reserve (72 hours).

Finally, we recommend you have your watch controlled and serviced through an official representative of the CYRUS brand every 3 years and you will enjoy your watch for lifetime.
